CHAPTER E

Annual schedule and time slots

70 occurrences present; 2 slots neutralised for the mock exam windows; 4 slots after 18 June conditional. 64 ordinary sessions before 18 June, i.e. 128 h, including two full practice papers. Saturday tests and mock exams: duration and placement to be confirmed, not artificially added to the teaching volume.

120-minute structure. Fluency routine 8; homework review 10; investigation or revisiting 15; lesson and example 30; exercises 40; wrap-up and homework 7; flexibility margin 10. For a first session, the diagnostic takes part of the exercise time. For a full paper, the 120 min are reserved for the paper, with no fluency routine added.

S01 – 2026-09-03: Welcome and cross-curricular diagnostic

Status: lesson. 09:45–11:45.

Fluency routine: R001, R008.

In class: Diagnostic of prior knowledge from seconde (the year before première) and presentation of working methods.

Homework: Finish only the diagnostic questions not yet covered, 10 min.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S02 – 2026-09-08: Defining and representing a sequence

Status: lesson. 09:45–11:45.

Fluency routine: R002, R009.

In class: C01-U1; worked examples and applications; C01-E1. Diagnostic D: 10 min; investigation RECH: 15 min.

Homework: CQFD, exercise 9 p. 64, parts a and b. Calculate the first four terms. Write out the substitutions before simplifying. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S03 – 2026-09-10: Arithmetic sequences

Status: lesson. 09:45–11:45.

Fluency routine: R003, R031.

In class: C01-U2; worked examples and applications; C01-E2: version A only.

Homework: CQFD, exercise 11 p. 64, all parts. Calculate the terms successively and keep a record of the four steps. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S04 – 2026-09-15: Geometric sequences

Status: lesson. 09:45–11:45.

Fluency routine: R004, R032.

In class: C01-U3; worked examples and applications; C01-E3; E2 version B.

Homework: C01-E3, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S05 – 2026-09-17: Sums, indices and proofs

Status: lesson. 09:45–11:45.

Fluency routine: R005, R032.

In class: C01-U4, C01-U5; worked examples and applications; C01-E4; E6 as time allows. MCQ 1 C01 (10 min, including correction). MCQ 2 C01 (10 min) and wrap-up.

Homework: C01-E8 to revisit in a week, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. Sums: essential formulas and proofs; exploration of thresholds to be revisited on 15 December. No formal induction.

S06 – 2026-09-22: Three forms, three readings

Status: lesson. 09:45–11:45.

Fluency routine: R006, R031.

In class: C02-U1; worked examples and applications; C02-E1. Diagnostic D: 10 min; investigation RECH: 15 min.

Homework: C02-E1, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S07 – 2026-09-24: Discriminant and solving

Status: lesson. 09:45–11:45.

Fluency routine: R007, R031.

In class: C02-U2; worked examples and applications; C02-E3.

Homework: CQFD, exercise 43 p. 99, parts a and c. First find an obvious root, then the other using the product of the roots. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S08 – 2026-09-29: Factorising without automating the discriminant

Status: lesson. 09:45–11:45.

Fluency routine: R008, R031.

In class: C02-U3; worked examples and applications; C02-E4.

Homework: CQFD, exercise 49 p. 99, parts a and b. Translate the sum and the product into an equation; do not assume in advance that the numbers exist. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S09 – 2026-10-01: Sign, inequalities and optimisation

Status: lesson. 09:45–11:45.

Fluency routine: R009, R031.

In class: C02-U4; worked examples and applications; C02-E5 or E6. MCQ 1 C02 (10 min, including correction). MCQ 2 C02 (10 min) and wrap-up.

Homework: C02-E8 to revisit in a week, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S10 – 2026-10-06: Projection and angle

Status: lesson. 09:45–11:45.

Fluency routine: R010, R031.

In class: C03-U1; worked examples and applications; C03-E4 and E6. Diagnostic D: 10 min; investigation RECH: 15 min.

Homework: C03-E4, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S11 – 2026-10-08: Coordinates, norm and orthogonality

Status: lesson. 09:45–11:45.

Fluency routine: R011, R031.

In class: C03-U2; worked examples and applications; C03-E1 and E2.

Homework: CQFD, exercise 9 p. 250, parts a and b. Calculate the dot product in the orthonormal basis and detail the two products of coordinates. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S12 – 2026-10-13: Vector calculation and identities

Status: lesson. 09:45–11:45.

Fluency routine: R012, R031.

In class: C03-U3; worked examples and applications; C03-E3. MCQ 1 C03 (10 min, including correction).

Homework: CQFD, exercise 11 p. 250, questions 1, 2 and 3. Use in turn the coordinates, Chasles' relation and the fact that I is the midpoint. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S13 – 2026-10-15: Al-Kashi and choosing a method

Status: lesson. 09:45–11:45.

Fluency routine: R013, R031.

In class: C03-U4, C03-U5; worked examples and applications; C03-E8 and E5 as time allows. MCQ 2 C03 (10 min) and wrap-up.

Homework: C03-E8 to revisit in a week, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S14 – 2026-11-03: Rate of change and secants

Status: lesson. 09:45–11:45.

Fluency routine: R014, R038.

In class: C04-U1; worked examples and applications; C04-E1: compute the two rates only; comparison with the derivative at a point deferred. Diagnostic D: 10 min; investigation RECH: 15 min. Made available: EV1-T1: choose a question suited to the topics already studied.

Homework: C04-E1: the rates only, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. Spare practice paper: replaces a planned homework task, with no accumulation of homework; do not require two full papers at home.

S15 – 2026-11-05: Derivative at a point

Status: lesson. 09:45–11:45.

Fluency routine: R015, R039.

In class: C04-U2; worked examples and applications; C04-E2 and E3. Made available: EV1-T2: choose a question suited to the topics already studied.

Homework: CQFD, exercise 17 p. 127, all parts. Read two points on each tangent; write the quotient of the increments rather than estimating its slope by eye. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. Spare practice paper: replaces a planned homework task, with no accumulation of homework; do not require two full papers at home. CQFD solutions in the teacher booklet; return to it at the next lesson.

S16 – 2026-11-10: Tangent and linear approximation

Status: lesson. 09:45–11:45.

Fluency routine: R016, R040.

In class: C04-U3; worked examples and applications; C04-E4 and E5. MCQ 1 C04 (10 min, including correction).

Homework: CQFD, exercise 19 p. 127, questions 1 and 2. Distinguish the y-coordinate of the point of contact from the slope of the tangent line. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S17 – 2026-11-12: When differentiability fails

Status: lesson. 09:45–11:45.

Fluency routine: R017, R041.

In class: C04-U4; worked examples and applications; C04-AP4 then E7 or E8. MCQ 2 C04 (10 min) and wrap-up.

Homework: C04-E8 to revisit in a week, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S18 – 2026-11-17: Conditioning: changing the denominator

Status: lesson. 09:45–11:45.

Fluency routine: R018, R042.

In class: C05-U1; worked examples and applications; C05-E1. Diagnostic D: 10 min; investigation RECH: 15 min.

Homework: C05-E1, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S19 – 2026-11-19: Trees, partitions and total probability

Status: lesson. 09:45–11:45.

Fluency routine: R019, R043.

In class: C05-U2; worked examples and applications; C05-E2 and E6.

Homework: CQFD, exercise 67 p. 336, questions 1, 2 and 3. Build a tree keeping the events D and N from the textbook. Note: N denotes a negative test. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S20 – 2026-11-24: Independence and incompatibility

Status: lesson. 09:45–11:45.

Fluency routine: R020, R044.

In class: C05-U3; worked examples and applications; C05-E3. MCQ 1 C05 (10 min, including correction).

Homework: C05-E3, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S21 – 2026-11-26: Successive trials and Bernoulli

Status: lesson. 09:45–11:45.

Fluency routine: R021, R045.

In class: C05-U4, C05-U5; worked examples and applications; C05-E4 and E5 as preferred. MCQ 2 C05 (10 min) and wrap-up.

Homework: CQFD, exercise 70 p. 336, parts a and b. Count the four equally likely outcomes of the two throws to refute the proposed equalities. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S22 – 2026-12-01: Derivative function and standard functions

Status: lesson. 09:45–11:45.

Fluency routine: R022, R040.

In class: C06-U1; worked examples and applications; C06-AP1: standard derivatives only. Diagnostic D: 10 min; investigation RECH: 15 min.

Homework: C06-AP1, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S23 – 2026-12-03: Sum, product, reciprocal and quotient

Status: lesson. 09:45–11:45.

Fluency routine: R023, R041.

In class: C06-U2; worked examples and applications; C06-E1.

Homework: C06-E1, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S24 – 2026-12-08: Sign of the derivative and extrema

Status: lesson. 09:45–11:45.

Fluency routine: R024, R042.

In class: C06-U3; worked examples and applications; C06-E2. MCQ 1 C06 (10 min, including correction).

Homework: CQFD, exercise 16 p. 156, parts f and g. For each function, give an interval on which it is both negative and increasing; justify the two properties separately. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S25 – 2026-12-10: Parity, inequalities and comparison

Status: lesson. 09:45–11:45.

Fluency routine: R025, R043.

In class: C06-U4, C06-U5; worked examples and applications; C06-E4 and E5 as preferred. MCQ 2 C06 (10 min) and wrap-up.

Homework: CQFD, exercise 12 p. 156, questions 1 and 2. Calculate the difference, study its sign and translate this into the relative position of the curves. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S26 – 2026-12-15: Revisiting sums and thresholds

Status: lesson. 09:45–11:45.

Fluency routine: R026, R038.

In class: C01-E4, E6, E7: check the number of terms and the preceding index; revisit the dot product C03-E8. Made available: EV2-T1: choose a question suited to the topics already studied.

Homework: C01-E8, 10 min.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. Spare practice paper: replaces a planned homework task, with no accumulation of homework; do not require two full papers at home.

S27 – 2026-12-17: Consolidating differentiation and probability

Status: lesson. 09:45–11:45.

Fluency routine: R027, R045.

In class: C06-E1 and E2; compare with C05-E8, two separate consolidation phases. Made available: EV2-T2: choose a question suited to the topics already studied.

Homework: Review the errors identified, 15 min.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. Spare practice paper: replaces a planned homework task, with no accumulation of homework; do not require two full papers at home.

S28 – 2027-01-05: Normal vector and Cartesian equation

Status: lesson. 09:45–11:45.

Fluency routine: R028, R052.

In class: C07-U1; worked examples and applications; C07-E1. Diagnostic D: 10 min; investigation RECH: 15 min.

Homework: CQFD, exercise 18 p. 279, parts a, b, c and d. Read a non-zero normal vector for each equation, without solving for y. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S29 – 2027-01-07: Orthogonal projection and distance

Status: lesson. 09:45–11:45.

Fluency routine: R029, R053.

In class: C07-U2; worked examples and applications; C07-E2 and E5.

Homework: CQFD, exercise 21 p. 279, parts a and b. Write the condition of orthogonality to the normal, then check that the given point lies on the line. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S30 – 2027-01-12: Equation of a circle

Status: lesson. 09:45–11:45.

Fluency routine: R030, R054.

In class: C07-U3, C07-U4; worked examples and applications; C07-E3 and E4. MCQ 1 C07 (10 min, including correction). MCQ 2 C07 (10 min) and wrap-up.

Homework: C07-E3, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S31 – 2027-01-14: Slot reserved for mock exams

Status: neutralised. 09:45–11:45.

Fluency routine: none.

In class: Mock exam 1 window (14–16 January): exact placement of mathematics to be confirmed.

Homework:

Note: Mock exam 1 window (14–16 January): exact placement of mathematics to be confirmed.

S32 – 2027-01-19: Variable, event and distribution

Status: lesson. 09:45–11:45.

Fluency routine: R001, R056.

In class: C08-U1; worked examples and applications; C08-E1. Diagnostic D: 10 min; investigation RECH: 15 min.

Homework: C08-E1, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S33 – 2027-01-21: Expected value and linearity

Status: lesson. 09:45–11:45.

Fluency routine: R002, R057.

In class: C08-U2; worked examples and applications; C08-E3: fair stake only; variance deferred.

Homework: CQFD, exercise 28 p. 306, all parts. Calculate the expected value from the distribution table; keep the probabilities associated with each value. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S34 – 2027-01-26: Variance, standard deviation and König–Huygens

Status: lesson. 09:45–11:45.

Fluency routine: R003, R058.

In class: C08-U3; worked examples and applications; C08-E2. MCQ 1 C08 (10 min, including correction).

Homework: CQFD, exercise 31 p. 306, parts all parts; use the distribution from exercise 28. Calculate the variance then the standard deviation, respecting the rounding to the nearest tenth required by the textbook. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S35 – 2027-01-28: Transforming and comparing gains

Status: lesson. 09:45–11:45.

Fluency routine: R004, R059.

In class: C08-U4, C08-U5; worked examples and applications; C08-E4 or E5 then sample workshop. MCQ 2 C08 (10 min) and wrap-up.

Homework: C08-E8 to revisit in a week, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S36 – 2027-02-02: Defining a new function

Status: lesson. 09:45–11:45.

Fluency routine: R005, R054.

In class: C09-U1; worked examples and applications; C09-AP1: tangent at 1. Diagnostic D: 10 min; investigation RECH: 15 min.

Homework: C09-AP1, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S37 – 2027-02-04: Algebraic properties and comparisons

Status: lesson. 09:45–11:45.

Fluency routine: R006, R055.

In class: C09-U2; worked examples and applications; C09-E1 and E2.

Homework: CQFD, exercise 18 p. 187, parts a, b and c. Simplify the products and quotients, citing the property of exponentials used. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S38 – 2027-02-09: Differentiating and studying

Status: lesson. 09:45–11:45.

Fluency routine: R007, R056.

In class: C09-U3; worked examples and applications; C09-E3. MCQ 1 C09 (10 min, including correction).

Homework: CQFD, exercise 30 p. 187, parts a, b and c. Solve the three inequalities and write the solution sets as intervals. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S39 – 2027-02-11: From discrete to continuous

Status: lesson. 09:45–11:45.

Fluency routine: R008, R057.

In class: C09-U4, C09-U5; worked examples and applications; C09-E4 and E5 as preferred. MCQ 2 C09 (10 min) and wrap-up.

Homework: C09-E8 to revisit in a week, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S40 – 2027-03-02: Measuring an angle in radians

Status: lesson. 09:45–11:45.

Fluency routine: R009, R052.

In class: C10-U1; worked examples and applications; C10-E1. Diagnostic D: 10 min; investigation RECH: 15 min.

Homework: C10-E1, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S41 – 2027-03-04: Wrapping and image of a real number

Status: lesson. 09:45–11:45.

Fluency routine: R010, R053.

In class: C10-U2; worked examples and applications; C10-E2.

Homework: C10-E2, 10–20 min maximum.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S42 – 2027-03-09: Sine, cosine and exact values

Status: lesson. 09:45–11:45.

Fluency routine: R011, R054.

In class: C10-U3; worked examples and applications; C10-E3 and E4. MCQ 1 C10 (10 min, including correction).

Homework: CQFD, exercise 39 p. 220, questions 1, 2, 3 and 5. Do the four questions on calculation and reading the circle; justify the answers in writing. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S43 – 2027-03-11: Associated angles and symmetries

Status: lesson. 09:45–11:45.

Fluency routine: R012, R055.

In class: C10-U4, C10-U5; worked examples and applications; C10-E6 or E7. MCQ 2 C10 (10 min) and wrap-up.

Homework: CQFD, exercise 32 p. 220, parts a and b. Use the exact value given and the associated angles, without a calculator. 10–20 min maximum; replaces the initial homework.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics. CQFD solutions in the teacher booklet; return to it at the next lesson.

S44 – 2027-03-16: Differentiation and absolute value: remediation

Status: lesson. 09:45–11:45.

Fluency routine: R013, R050.

In class: C04-E8; C06-E6; revisit the proofs for the square and the reciprocal.

Homework: C06-E8, 10 min.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S45 – 2027-03-18: Lists, sums and simulations

Status: lesson. 09:45–11:45.

Fluency routine: R014, R057.

In class: Python workshop: suites.py and probabilites.py; C01-E7 and C08-E7, tasks chosen according to needs.

Homework: Reread a program and write its output by hand, 15 min.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S46 – 2027-03-23: Random variables: consolidating the models

Status: lesson. 09:45–11:45.

Fluency routine: R015, R064.

In class: C08-E2 and E8; distribution, expected value and variance; protocol for simulating samples.

Homework: C08-E5, 15 min.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S47 – 2027-03-25: Preparing mock exam 2: methods

Status: lesson. 09:45–11:45.

Fluency routine: R016, R071.

In class: EV3-T1: exercises, with an individual solution and a comparison of methods.

Homework: Finish a designated exercise from paper EV3-T1, 20 min.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S48 – 2027-03-30: Preparing mock exam 2: independence

Status: lesson. 09:45–11:45.

Fluency routine: R017, R031.

In class: EV3-T2: selection of two exercises according to the diagnostic; verbalise the checks.

Homework: Review the personal error sheet, 15 min.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S49 – 2027-04-01: Slot reserved for mock exams

Status: neutralised. 09:45–11:45.
Fluency routine: none.
In class: Mock exam 2 window (1–3 April): exact placement of mathematics to be confirmed.
Homework:
Note: Mock exam 2 window (1–3 April): exact placement of mathematics to be confirmed.

S50 – 2027-04-06: Mock exam 2 feedback

Status: lesson. 09:45–11:45.
Fluency routine: R019, R045.
In class: Correct the errors actually observed; papers EV3-A/B depending on the version sat.
Homework: Redo an incorrect question without consulting the solutions, 15 min.
Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S51 – 2027-04-08: Consolidation after mock exam 2

Status: lesson. 09:45–11:45.
Fluency routine: R020, R052.
In class: C07-E2, E3 and C10-E6; two groups according to geometry errors.
Homework: C07-E8, 10 min.
Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S52 – 2027-04-27: Choosing a method in algebra

Status: lesson. 09:45–11:45.
Fluency routine: R021, R059.
In class: C02-E3, E4 and E7
Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.
Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S53 – 2027-04-29: Probability: identifying the denominator

Status: lesson. 09:45–11:45.
Fluency routine: R022, R066.
In class: C05-E1, E2 and E6
Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.
Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S54 – 2027-05-04: Differentiation: sign and domain

Status: lesson. 09:45–11:45.
Fluency routine: R023, R073.
In class: C06-E1, E3 and E8
Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.
Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S55 – 2027-05-11: Geometry: choosing a framework

Status: lesson. 09:45–11:45.
Fluency routine: R024, R033.
In class: C03-E3 and C07-E2
Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.
Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S56 – 2027-05-13: Exponential and sequences

Status: lesson. 09:45–11:45.
Fluency routine: R025, R040.
In class: C09-E2, E3 and E8
Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.
Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S57 – 2027-05-18: EAM: timed practice T1

Status: lesson. 09:45–11:45.
Fluency routine: none.
In class: EV4-T1, full paper 120 min
Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.
Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S58 – 2027-05-20: Practice T1 feedback

Status: lesson. 09:45–11:45.
Fluency routine: R027, R054.
In class: EV4-T1: differentiated correction; redo two questions
Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.
Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S59 – 2027-05-25: Variance and statistics

Status: lesson. 09:45–11:45.
Fluency routine: R028, R061.
In class: C08-E2 and E4; R017–R020 and R026–R028
Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.
Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S60 – 2027-05-27: Circle, radians and proofs

Status: lesson. 09:45–11:45.
Fluency routine: R029, R068.
In class: C10-E2, E3 and E6; proofs of the exact values
Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.
Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S61 – 2027-06-01: EAM: timed practice T2

Status: lesson. 09:45–11:45.
Fluency routine: none.
In class: EV4-T2, full paper 120 min
Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.
Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S62 – 2027-06-03: Practice T2 feedback

Status: lesson. 09:45–11:45.
Fluency routine: R078, R035.
In class: EV4-T2: differentiated correction; individual plan
Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.
Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S63 – 2027-06-08: Consolidating proofs

Status: lesson. 09:45–11:45.
Fluency routine: R001, R042.
In class: TRANS: logic; C01-U4, C03-U4 and C06-U2
Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.
Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S64 – 2027-06-10: Algebra-analysis synthesis

Status: lesson. 09:45–11:45.

Fluency routine: R002, R049.

In class: C06-E5 and C09-E6

Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S65 – 2027-06-15: Fluency routines and reading data

Status: lesson. 09:45–11:45.

Fluency routine: R003, R056.

In class: R001–R030, selection according to errors; R078

Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S66 – 2027-06-17: Final revisiting and exam technique

Status: lesson. 09:45–11:45.

Fluency routine: R004, R063.

In class: Questions already missed; managing the 120 minutes, checking domains

Homework: Redo one targeted question, 10–15 min; no extra homework after a full paper.

Note: Expected mastery, to be adjusted from the work actually done and the diagnostics.

S67 – 2027-06-22: Consolidation depending on whether lessons continue

Status: conditional. 09:45–11:45.

Fluency routine: R005, R070.

In class: Targeted revisiting or transition to Terminale (Year 13): C06-E8, C09-E8, C10-E8, depending on attendance and exams.

Homework:

Note: Do not count this slot in the compulsory coverage before the EAM. Continuation of lessons to be confirmed.

S68 – 2027-06-24: Consolidation depending on whether lessons continue

Status: conditional. 09:45–11:45.

Fluency routine: R006, R077.

In class: Targeted revisiting or transition to Terminale (Year 13): C06-E8, C09-E8, C10-E8, depending on attendance and exams.

Homework:

Note: Do not count this slot in the compulsory coverage before the EAM. Continuation of lessons to be confirmed.

S69 – 2027-06-29: Consolidation depending on whether lessons continue

Status: conditional. 09:45–11:45.

Fluency routine: R007, R037.

In class: Targeted revisiting or transition to Terminale (Year 13): C06-E8, C09-E8, C10-E8, depending on attendance and exams.

Homework:

Note: Do not count this slot in the compulsory coverage before the EAM. Continuation of lessons to be confirmed.

S70 – 2027-07-01: Consolidation depending on whether lessons continue

Status: conditional. 09:45–11:45.

Fluency routine: R008, R044.

In class: Targeted revisiting or transition to Terminale (Year 13): C06-E8, C09-E8, C10-E8, depending on attendance and exams.

Homework:

Note: Do not count this slot in the compulsory coverage before the EAM. Continuation of lessons to be confirmed.
